

## **Faculty Praise for *Attractions Guides*...**

What's that sound I'm hearing? K-ching, k-ching....Just yesterday I saved \$10 at the organic butcher, \$10 at Rebecca's, and \$4 at the Mermaid Cafe at PVCC. I bought two *Attractions* books, one from Cale (my granddaughter's project) and one from our drama department. I'm saving money right and left...and jump starting the local economy. Who knew! – Larry

I bought my *Attractions* guide this morning, and was stunned to see that, through shopping at Rebecca's Natural Foods, Integral Yoga, and Whole Foods, I'll have already saved \$45.00. Nothing for free in this world? How about a ROI of nearly 50% in less than a minute? On only two pages of the 221 page book? Wow...what a deal. Not to mention that, with the purchase, the drama department gets badly needed funds. Win-Win-Win. Triple Auspicious Witching. – Brett

And they make great gifts ~ you can get them at the front desk, come on down! – Michele

You actually save money by buying these and shopping at the places you already shop anyway.  
– Jean Dunnington
